FEATURES: Which of the following features are required?

AUTO SENSE
Detects pouch thickness and self-adjusts to the optimal laminating setting

InstaHeat
Ready to laminate in as little as 30-60 seconds every time

JAM FREE
Clear Path mechanism, and pouch reverse / release features prevent jams when used with Fellowes pouches

AUTO SHUT OFF
Powers down after periods of inactivity, reducing energy consumption

HeatGuard Technology SAFE TO TOUCH
Reduces the surface temperature of the laminator, ensuring it is safe to touch

HOT SWAP
Allows immediate, manual switching between different pouch thicknesses

Advanced Pouch Tracking System
Detects potential jams, stops laminating and allows user to reverse and realign the pouch

Feed IQ
Indicator light tells the user when the laminator is ready to accept the next pouch

Fellowes laminators cover pouch thicknesses between 80 and 250 microns. The thicker the pouches accepted, the more versatile the machine and the more applications for which it can be used.

The table shows the pouch thicknesses which are accepted by each laminator:

	up to 80 micron	up to 100 micron	up to 125 micron	up to 175 micron	up to 250 micron

Large Office Laminators

up to 250 micron

Proteus A3 Laminator

HEAVY USE.

- 6 roller technology heating 4 large diameter rollers for high quality results
- Fully variable controls + 6 pre-set controls for popular applications
- Laminates up to 95 cm/min (approx. 180x A4 pouches per hour)
- Ability to laminate hot and cold, with or without carriers, mounting board and foils

Model	Entry Width	No. of Rollers	Heat-up Time	Temp Settings	Cold Setting	Max Speed	Misfeed Mechanism	Starter Kit	Warranty
Proteus A3	325mm	6	3 mins	Variable (6 pre-sets)	Yes	95 cm/min	Manual Reverse	No	1 year

Office Laminators

Laminates an A4 pouch in as little as
17 Seconds

up to **250** micron

Venus 2 A3 Laminator

HEAVY USE.

- Laminates an 80 micron A4 pouch in approx. 17 seconds - that's around 35 pouches every 10 minutes.
- Robust 6-roller laminator for superior lamination quality, can laminate all pouches up to 250 microns (2x250)
- Advanced Pouch Tracking System detects potential paper jams and automatically reverses, allowing the user to realign the pouch
- Feed IQ indicates when the next pouch can be inserted, preventing jams and maximising productivity

up to **250** micron

Jupiter 2 A3 Laminator

HEAVY USE.

- Laminates an 80 micron A4 pouch in approx. 19 seconds - that's around 30 pouches every 10 minutes.
- Robust 6-roller laminator for superior lamination quality, can laminate all pouches up to 250 microns (2x250)
- Advanced Pouch Tracking System detects potential paper jams and automatically reverses, allowing the user to realign the pouch

up to **175** micron

Neptune 3 A3 Laminator

HEAVY USE.

- Laminates an 80 micron A4 pouch in approx. 23 seconds - that's around 25 pouches every 10 minutes.
- 4-roller laminator for high quality results, can laminate all pouches up to 175 microns (2x175)
- Advanced Pouch Tracking System detects potential paper jams and automatically reverses, allowing the user to realign the pouch

JAM FREE | **AUTO SHUT OFF** | InstaHeat

Saturn 3i A3 & A4 Laminators

MEDIUM USE.

- 30cm/min laminating speed for 80-125 micron pouches
- Laminator feed sensor indicates when a document has been misfed and stops the laminating process, allowing the pouch to be manually released and realigned
- Auto shut off after 30 minutes of inactivity, reducing energy consumption

NEW

up to 125 micron

JAM FREE | HeatGuard Technology™ SAFE TO TOUCH | **AUTO SHUT OFF**

Pixel A3 & A4 Laminators

MODERATE USE.

- Auto shut off after 30 minutes of inactivity, reducing energy consumption
- Individual temperature settings for 80 and 125 micron pouches for a better quality finish
- Release trigger for retrieving and realigning misfed documents

up to 125 micron

JAM FREE | **AUTO SHUT OFF**

Spectra A3 & A4 Laminators

MODERATE USE.

- User-friendly laminator for moderate use in home & home office environments
- Laminates up to A4 or A3 size documents in 80 - 125 micron pouches
- Release lever disengages pouch for document realignment or removal

NEW

up to 125 micron

JAM FREE | **AUTO SHUT OFF**

Ion A4 Laminator

LIGHT USE.

- User-friendly laminator for home environments
- Laminates documents and photos in 80 - 125 micron pouches
- Release lever disengages pouch for document realignment or removal

GET READY TO MAKE A GREAT IMPRESSION

First impressions are important. When you've worked hard on a project and invested time and effort into your presentation, you need to give it the professional finish it deserves to make the greatest impact.

Binding is the perfect way to present your documents.

WHAT TO BIND?

Use binding for a wide variety of document finishing tasks at work and at home. If it's important enough to present or securely fasten, add the finishing touch for a professional image.

TYPES OF BINDING SYSTEM

Different binding systems are suitable for different applications. Fellowes offer 3 types of system:

COMB BINDING

The most popular and economical binding system. It's practical, easy to use and very flexible.

- Cost effective and quick
- Documents are easy to use; they can be opened out flat so they are easy to read and photocopy. They are ideal for presentations
- Can add and remove pages easily

WIRE BINDING

Stylish, durable wire binders with unique, user-friendly features. Gives your document a stylish, top-quality finish that is permanent and secure.

- Secure documents, cannot be reopened
- Creates the same durable look used by professional printers
- Documents can be opened out flat so they are easy to read and photocopy and are ideal for presentations

THERMAL BINDING

A quick, easy way to give any document a perfect "book" finish

- Neat and flat, making them easy to store, carry around and post
- Quick and easy; ideal binding method when time is limited
- Create a professional finish without punching holes into your document

## Comb Binding

CHOOSING THE RIGHT COMB BINDER

If you've decided that a comb binder is the best option, you should then look for features and specifications that will best match your needs. Fellowes comb binders are segmented according to how often they will be used and the size of the documents they can bind - measured on binding capacity, punch capacity and the maximum size of comb that can be accepted.

Binding Capacity

MAX

The higher the binding capacity, the larger the document you can bind.

Punch Capacity

MAX

The higher the punching capability of the binder, the quicker the process. (Comb & Wire only).

Max. Element Size

MAX

Maximum comb diameter suitable for use with the binder. (Comb & Wire only).

USAGE: Where and how often will the binder be used?

| HEAVY USE OFFICE ENVIRONMENTS | MEDIUM USE SMALL OFFICES | LIGHT / MODERATE PERSONAL & HOME OFFICE |

FEATURES: Making the binding process simple

Maximum output punch and bind capacities increase productivity for faster binding

Vertical loading maximises document aligment

Punch and bind in one flow – punch and place documents directly on comb

Enhanced accuracy edge guide ensures pinpoint punch alignment

Document and comb measure / comb storage tray

TYPE: Manual or electric document punching?

ELECTRIC PUNCHING

Provides ultimate ease of use. Electric punch button makes it easier to punch through large documents and also work through large quantities of documents quickly.

MANUAL PUNCHING

Strong metal punch handle on Fellowes machines makes it easy to punch through documents by hand.

Orion-E Electric & Orion Manual Comb Binders

HEAVY USE.

- Designed to punch and bind documents for heavy duty users with demand for maximum punch and bind capacity
- Pedal operated punching for up to 30 sheets in a single cycle (Orion-E Electric)
- 21 individual and selectable punching pins
- Fully adjustable edge guide (side margin)
- 5 position back margin & document measure

Satellite SYSTEM ®

SATELLITE removable binding platform allows multiple users to punch and bind simultaneously, saving time in the work place.

Galaxy-E Electric & Galaxy Manual Comb Binders

HEAVY USE.

- For high volume binding documents of up to 500 pages
- 28 sheet punch capacity, 500 sheet binding capacity with a maximum comb size of 50mm
- Front access full size storage tray with patented comb & document measure for quick selection of the correct size supplies
