## Features

- High-resoluting and deep-reaching sound

The 50mm large neodymium driver and innovative technology deliver high definition sound in near perfection and reproduces all your music's dynamics and controlled bass that DJs and audiophiles need.

- 6.35mm & 3.5mm Audio Jack Design

Our solution for the adapter-free headphones. They come with a detachable spring cable that with 3.5mm & 6.35mm plug on each end. For connecting to ordinary audio devices, such as, mobile phone, iPad, iPod, etc., you can plug the 6.35mm side into the headphones, the other side to your music player device; For connecting to professional musical instruments, such as Mixer, Turntable, you can plug the 3.5mm side into the headphones, and the other side to your Mixer, guitar, etc.

- 90°Rotating Ear Cups

The ear cups pivot for a personalized fit, and rotates 90 degrees to lay flat. The lay-flat design makes them easier to transport and more comfortable when resting around the neck. The ear-cups can be rotated both left and right for single-ear monitoring.

- Premium Comfort Ear Pads and Excellent Noise-cancelling Performance

The over ear pads are covered with premium soft PU leather for extended comfort for added noise isolation.

- Stretchable Coiled Cable

The static 2m cable can be stretched up to 3m for extended use.

- 1.2m standard cable with mic

Remote control function

- Foldable and Portable

CT3012 are flexible headphones that can be naturally adjusted to fit any sized head.

It can be folded flat and put into the designed pouch when on the move.

We will, at our sole option, repair or replace (using new or refurbished replacement parts) any defective parts within a reasonable period of time and free of charge.

## ■ What is not Covered

This warranty does not cover defects resulting from improper or unreasonable use or maintenance; failure to follow operating instructions; accidents; excess moistures; insects; lightning; unauthorized alteration or modification of original condition; damage caused by inadequate packing or shipping procedures; loss of, damage to or corruption of stored data; damage caused by use with non-OneOdio products; product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by there modifications; and products purchase form unauthorized dealers.

- For more warranty information please visit our website on: [www.parrot.co.za](http://www.parrot.co.za)

- Q: Why do you have 2 plugs on the headphones, one for 6.35mm and one for 3.5mm?  
A: For connecting to ordinary audio devices, such as, mobile phone, iPad, iPod, etc., you can plug the 6.35mm jack into the headphones, the other side to your music player device; For connecting to professional musical instruments, such as Mixer, Turntable, you can plug the 3.5mm jack into the headphones, and the other side to your Mixer, guitar, etc. which means it is free from using the 6.35mm (1/4 inch) to 3.5 mm male to female stereo adapter.
- Q: How long is the cord? Does the cord have a built in mic?  
A: The headphones are attached with two cables:  
Cable 1: 2m-3m coiled cable / Cable 2: 1.2m straight cable with microphone
- Q: Can you play these with a keyboard? Or do you need an adapter?  
A: Yes, they can play with electronic keyboard (electronic piano), no adapter needed.
- Q: Are they on-ear or over-ear?  
A: They are over-ear. The headphones are larger in diameter than the average person's ear, and the cushioned edge of headphones fit around the outside edge of your ear.
- Q: Are these "open back" or "closed back" headphones?  
A: They are closed-back headphones.
