Metal
Vehicles (licence disc)
Laminated wood & furniture
Painted wood & furniture

*Always test a small area prior to application to ensure surface is unaffected

> Facts & Benefits

STRONG

- « Penetrates through adhesive residue »
- « Softens residue for easy removal »
- « Effective on solvent based & Urethane adhesives »

EFFICIENCY

- « Suitable for vertical surfaces »
- « Holds to surfaces »
- « Non-drip formula »

ADDED VALUE

- « Handy 90ml tube »
- « FREE Spatula »
- « 12 month shelf life »

How to use

1. Apply a thick layer of Bostik Glu GO to desired area using the spatula.
2. Leave for 10 – 30 minutes depending on thickness, type, size and age of adhesive.
3. Remove the softened adhesive with a cloth, spatula or plastic scraper.
4. A second or third application may be required, depending on the thickness and age of the residue.
5. Once the adhesive has been removed, wash the surface with soap and water.

Tip: Remove most of the adhesive prior to the Glu GO application as it will shorten the reaction time (eg. double sided foam tape).
