

## User's manual for Manual Pull Down Screen

## SAFETY GUIDE

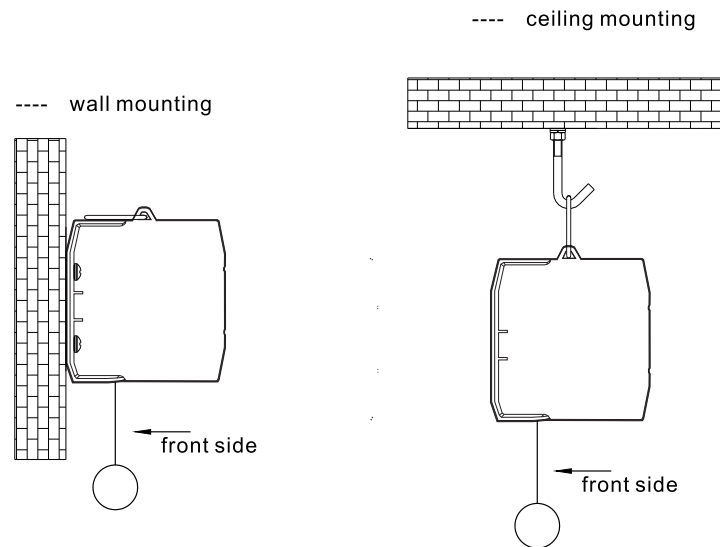

Do not stand under the screen during assembly. Bolts need to be firmly punched and fixed into the wall or ceiling.

## SPECIFICATIONS

1. Exclusive patented buffer deceleration device allows the fabric to rise at a constant speed.
2. Patented self-locking device with advanced bearing design, reliable and smooth operation, low noise.
3. Easy assembly methods: suitable for both wall and ceiling mounting.
4. Flat screen surface that is flame retardant, mildew resistant, odourless, hard to distort and induration resistant.

## ASSEMBLY

1. Open carton and check accessories according to the list.
2. Refer to the following assemble instruction.
3. Please keep the screen case and plates in a horizontal position when assembling.

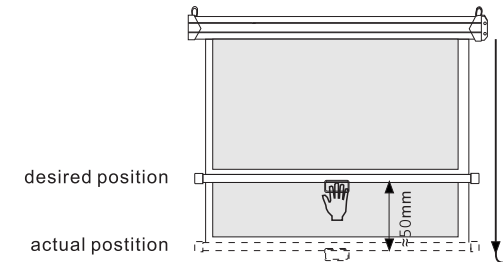

## ADJUSTMENT & OPERATION

### Open the fabric

Slowly pull down the screen about 50mm lower than the desired position, pull back to the desired position, then release. The screen will self-lock.

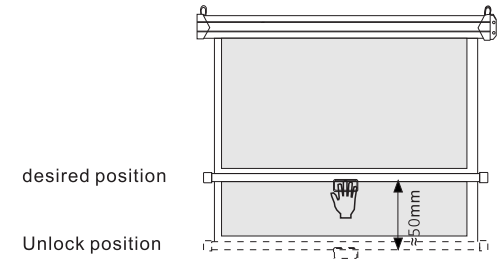

\* To avoid damaging the fabric, do not pull further than the black border.

### Closing the fabric

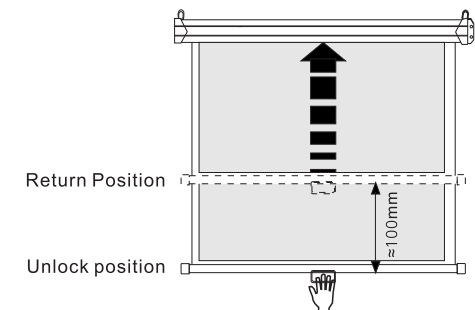

#### 1. Unlock.

Pull the fabric down about 50mm, and the screen will unlock automatically.

#### 2. Constant speed

Once unlocked, hold the screen at 100mm then release, the screen will return to its casing.

---

## SCREEN CARE

---

To clean, use a damp towel (either water or a weak alkaline detergent).  
Do not use alcohol as this can deteriorate the screen.

Parts	Dust	Impurity
Casing	Remove dust with a feather duster	Clean with a mild soap solution, Dry with a cotton cloth, Take care to avoid scratching the case
Fabric	Remove dust with a feather duster	Wipe with a cotton cloth

1. Do not fold or scratch the fabric.
2. After usage, check that there are no foreign objects on the screens surface before you draw the fabric back into it's case.
