What is HEOS®?

HEOS is a wireless audio platform built into Denon and Marantz products. HEOS lets you stream music and audio entertainment from your favorite apps, devices, and personal libraries—and play it on connected speakers, AV receivers, hi-fi systems, and sound bars throughout your home using a free, easy-to-use app.

From background beats to big-screen moments, HEOS unites your entire entertainment experience. Create connected zones for TV, movies, and gaming, or sync every speaker for a whole-home soundtrack that flows effortlessly from room to room.

Why choose HEOS?

All your audio, one app. Access streaming services and your music libraries in one place.

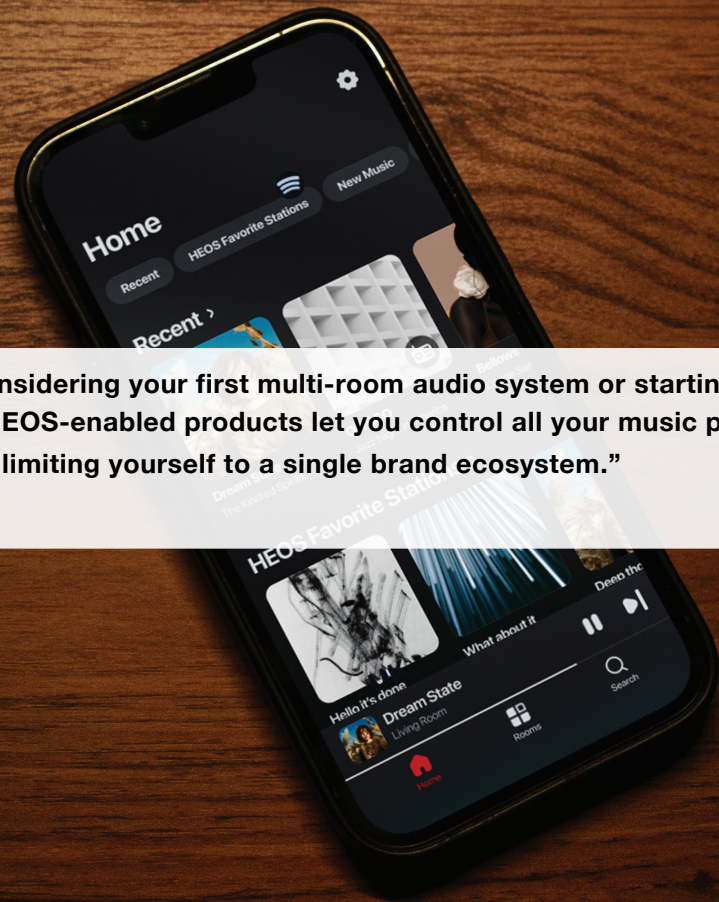

Centralized control, your way. Play music in any room—or every room—all from the palm of your hand or with your voice using select smart assistants.

One platform, nearly endless possibilities. Combine Denon and Marantz speakers, AV receivers, sound bars, and amplifiers Powered by HEOS™. You can even add your own gear, including turntables and passive speakers, by connecting to compatible products.

No hubs, no clutter. Everything connects over your home Wi-Fi.

Hear every detail, feel every moment. With support for high-resolution audio up to 24-bit/192kHz, HEOS delivers stunning clarity and emotion.

“

“Whether you’re considering your first multi-room audio system or starting with components you already have, HEOS-enabled products let you control all your music preferences from a single app, without limiting yourself to a single brand ecosystem.”

—eCoustics

”

One app, total control

The free HEOS app brings all your music, rooms, and devices together. Stream playlists, podcasts, and more from leading services throughout your house. Set a different vibe in each space, or sync your whole home with a tap.

It's as easy as 1, 2, Play.

1. Connect your devices and services

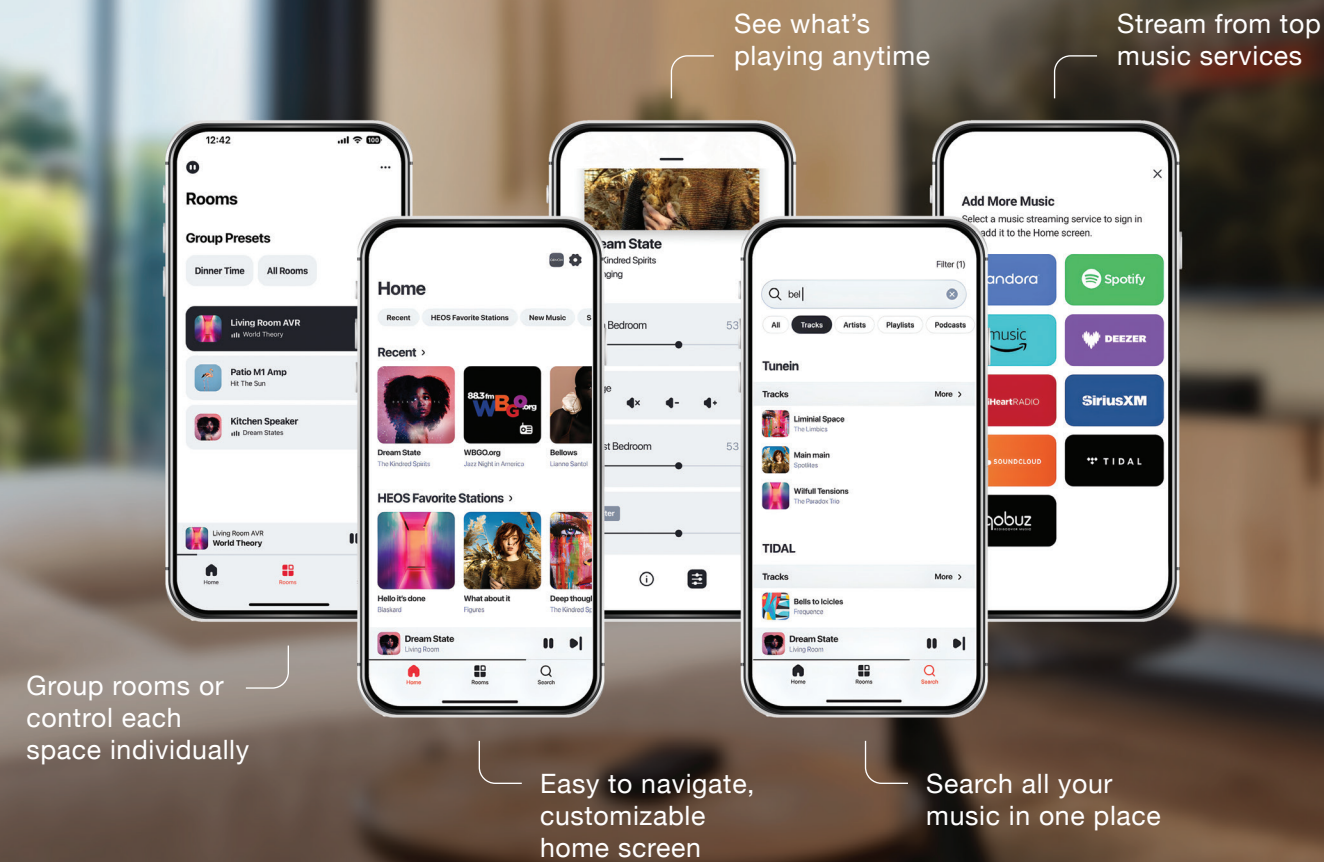

Get up and running in minutes and start streaming without the stress. The HEOS app makes setup quick and seamless—no wires, no hassles, just pure sonic bliss.

2. Set the mood

Pick the perfect song for every moment. From personal playlists to favorite radio stations, HEOS puts a world of audio entertainment at your fingertips.

3. Bring your home to life with sound

A podcast in the kitchen, a dance party in the living room. With HEOS, every room can have a different soundtrack—or, sync it all in perfect harmony.

Whole-home harmony, Powered by HEOS.

Imagine every room in your home brought to life with sound. HEOS transforms everyday spaces into immersive experiences—from playlists to podcasts to movie nights—connecting Denon and Marantz systems over Wi-Fi for effortless, high-fidelity listening in every room.

HEOS: For all the ways you listen

Multiroom music

Play different songs in every room, or sync up the entire house for a party.

Whole-home hi-fi

Love your legacy passive speakers? Connect them to a HEOS-enabled Denon or Marantz AV receiver or amplifier to start streaming music throughout your home without giving up your favorite gear.

Vinyl vibes

Connect a compatible turntable to a product Powered by HEOS and let the warmth of vinyl flow through every space in your home.

Surround sound, streamlined

Pair wireless HEOS-enabled speakers and a subwoofer with a Denon Home Sound Bar 550 for immersive home theater without the cable clutter.

Meet the HEOS family

Craft a system that fits your space, your sound, and your style—with legendary gear, Powered by HEOS. Choose from more than 50 compatible Denon and Marantz products, from AV receivers and amplifiers to sound bars and smart speakers.

The selection shown here highlights some of our most popular models. Explore the full lineup at [denon.com](https://www.denon.com) and [marantz.com](https://www.marantz.com).

Have HEOS questions? We have answers.

Is HEOS a product I can buy?

No. HEOS is the wireless platform built into connected Denon and Marantz gear and controlled by the HEOS app.

What can I stream with HEOS?

Stream services* like Amazon Music HD, TuneIn, and Qobuz, plus your personal libraries on connected drives. You can also stream directly using Spotify Connect, TIDAL Connect and Qobuz Connect for seamless, app-to-device playback.

Does HEOS work with Bluetooth® and AirPlay® 2?

Yes. You can stream to any Powered by HEOS device via Bluetooth or AirPlay 2. With the HEOS app, you can then share that stream across multiple rooms—so even a single Bluetooth or AirPlay source can fill your entire home.

Does HEOS work with home automation systems?

Yes. HEOS is compatible with a wide range of home automation platforms, including Control4® and Crestron®, through supported Denon and Marantz components.

*Music services availability varies by region
