LISTENERS APPRECIATE

a lack of distortion

PAUL W. KLIPSCH - FOUNDER

Over 70 years ago

SOMETHING VERY SPECIAL OCCURRED IN A TINY TIN SHED IN HOPE, ARKANSAS

In 1946 Paul W. Klipsch (PWK) - genius, madman and maverick - designed and hand-built the legendary Klipschorn® loudspeaker with the goal of bringing live music into his living room. He was an American audio pioneer and a true eccentric. PWK gave rise to speaker research and invention that would forever impact generations of music lovers.

Today, in this honored tradition, we move forward, pushing the boundaries of art and science - while driving new technologies - to deliver an ever-incredible listening experience. Remember great sound? We never forgot.

We are the Keepers of the Sound®

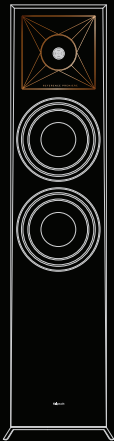

LEGENDARY ACOUSTICS

advanced technology

Klipsch

TRACTRIX® HORN TECHNOLOGY

Proprietary Klipsch 90° x 90° Tractrix horn technology improves high-frequency response and extension, while enhancing imaging and dynamics for movies and music.

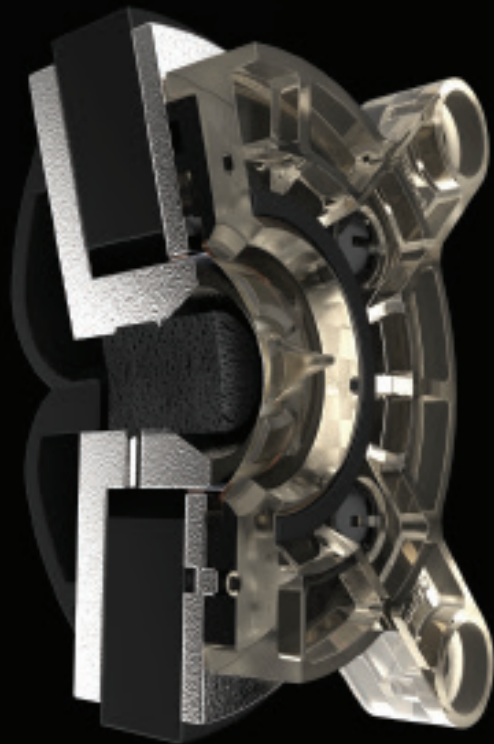

VENTED TWEETER DESIGN

The new ultra-premium vented tweeter housing eliminates unwanted harmonics for detail and clarity.

LINEAR TRAVEL SUSPENSION TITANIUM DIAPHRAGM TWEETER

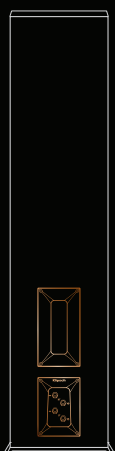

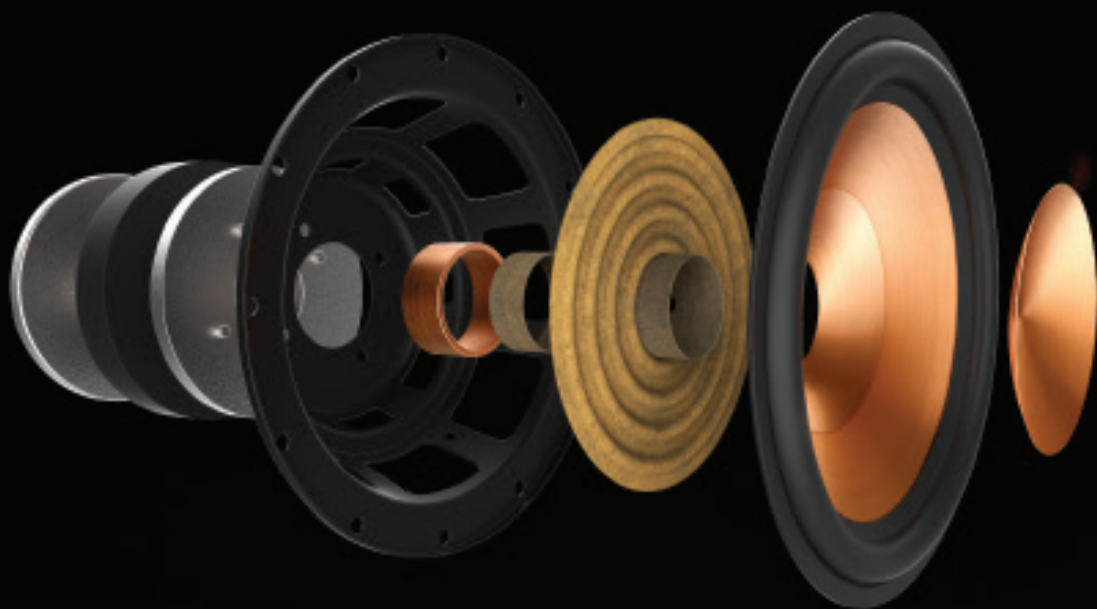

The exclusive Linear Travel Suspension titanium tweeter minimizes distortion for enhanced, detailed performances.

SPUN COPPER CERAMETALLIC™ WOOFERS

Klipsch signature copper Cerametallic woofers minimize distortion and maximize efficiency.

TRACTRIX PORTS

Utilizing Tractrix geometry, the ports allow for the most efficient, fastest air transfer from the cabinet, which reduces port noise for punchier bass.

BI-WIRING / BI-AMPING CAPABILITY

Bi-wiring separates high and low frequency currents into separate speaker cables, reducing distortion, for a clearer midrange. Bi-amping allows for customization using outboard crossovers when using separate amplifiers.

overhead SENSATION

Klipsch proprietary speaker technologies are ideal for delivering the most immersive, impactful 360° Dolby Atmos® listening experience. Hear sound come alive from all directions, including overhead, to fill a home theater with astonishing clarity, power, detail and depth.

Choose from speakers with an integrated elevation channel, or add an elevation speaker to the top of any existing floorstanding or monitor speaker.

DESIGNED WITH PRIDE IN INDIANAPOLIS

WE NEVER, *ever* STOP INNOVATING

For over 70 years Klipsch has designed and engineered its products in-house with some of the most talented, skilled and passionate people in the industry - starting with our founder, Paul W. Klipsch (PWK), in a tin shed in Hope, Arkansas.

Today, our advanced acoustic research and development continues at our state-of-the-art facility in Indianapolis, Indiana. The world-class Klipsch Design & Technology Center is home to some of the most brilliant minds in consumer electronics and some of the most legendary products the industry has ever heard. We continue to innovate, honoring the principals and ideals of PWK, reaching ever-farther towards that perfect sound.
