## DISC PLOUGH/ARG-DP

# INFORMATION

The Round Frame Disc Plough is manufactured with 2,3,4,5 and 6 discs. 660 x 6mm or 710 x 6mm diameter discs are made with 50-52 Rh hardness corrosion-proof steel and resistance to cracking. The discs can be adjusted according to the soil conditions by means of direction angle. The purposes of tillage are cultivating the stubbly soil, preparing the seedbed, controlling weeds and decreasing the danger of wind erosion. There are adjustable mud scrapers that are placed on the discs to prevent mud accumulation.
