

Rovic Side Discharge Mulcher

“Recycle your organic material where it grows”

Optional rear roller kit

- The Original Rovic side discharge mulching machines, available in 4 sizes, are constructed from 5mm laser cut mild steel frames with Heavy duty 3-Point attachment. The Extra Heavy duty cutting disc carries 8 free swinging blades of 4 different shapes mounted in patterns according to the type of material to be mulched (prunings up to 75mm).
- All Organic materials are traditionally cut and left in rows during routine mowing and pruning. It can now be placed where it is of most value: Around the general root zone of vines and trees to assist in achieving
 - Soil moisture retention
 - Increased microbic action
 - Improved soil quality
 - Reduction in weed growth
 - Eliminate labour to carry out prunings in Summer & Winter

8 Forged Swing Blades

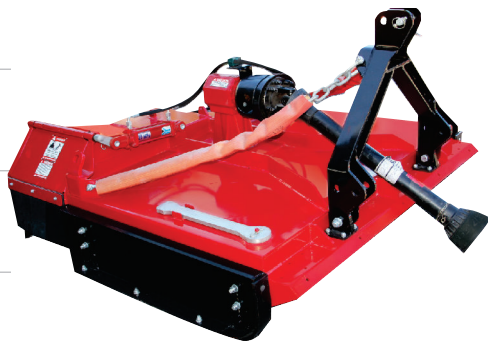

4 Different shapes

Technical Specifications: Rovic Side Discharge Mulcher

Mulched material is placed where required by using a hydraulically controlled outlet operated from the tractor seat

Extra heavy duty cutting discs, fitted with 4 possible shapes of blades combined in patterns to optimise the mulching of the material involved using a total of 8 blades per chosen arrangement

Steel roller

An OPTIONAL rear roller kit. Can be fitted to control the cutting height in uneven and stony conditions. "Particularly useful with prominent centre ridges".

Pruning Apron

An OPTIONAL pruning apron can be fitted to the front of the frame. This greatly assists with the intake of all loose prunings.
