Comparing Traditional and Wi-Fi Irrigation Control

UPGRADING IS AS EASY AS 1, 2, 3!

1. GOOD	2. BETTER	3. BEST

X-CORE®

2-, 4-, 6-, or 8-station fixed indoor or outdoor controller, 1 sensor input, with optional on-site ET weather adjustments

Compatible with: *ROAM remotes, Solar Sync® sensor*

X2™

4-, 6-, 8-, or 14-station fixed outdoor controller with 1 sensor input

Compatible with: *ROAM remotes, Rain-Clik® sensor, WAND module*

X2 and WAND Wi-Fi Module

4-, 6-, 8-, or 14-station fixed outdoor controller, 1 sensor input, with remote management and online weather adjustments

Compatible with: *ROAM remotes, Rain-Clik sensor*

Pro-C®

4- to 32-station modular indoor or outdoor controller, two-wire capable, 1 sensor input, with optional on-site ET weather adjustments

Compatible with: *ROAM remotes, Solar Sync sensor, EZ Decoder System*

HPC

4- to 32-station modular outdoor controller, two-wire capable, 1 sensor input, with remote management and online weather adjustments

Compatible with: *ROAM remotes, Rain-Clik sensor, HC Flow Meter, EZ Decoder System*

HPC and HC Flow Meter

4- to 32-station modular outdoor controller, two-wire capable, 1 sensor input, with remote management, online weather adjustments and flow monitoring

Compatible with: *ROAM remotes, Rain-Clik sensor, EZ Decoder System*

ICC2

Up to 54-station modular outdoor controller, two-wire capable, 1 sensor input, with optional on-site ET weather adjustments

Compatible with: *ROAM remotes, Solar Sync sensor, EZ Decoder System*

HCC

Up to 54-station modular outdoor controller, two-wire capable, 2 sensor inputs, with remote management and online weather adjustment

Compatible with: *ROAM remotes, Rain-Clik sensor, HC Flow Meter, EZ Decoder System*

HCC and HC Flow Meter

Up to 54-station modular outdoor controller, two-wire capable, 2 sensor inputs, with remote management, online weather adjustments and flow monitoring

Compatible with: *ROAM remotes, Rain-Clik sensor, EZ Decoder System*
