PRO-C®

Simple programming and flexible station expansion make Pro-C the professional's choice for residential and light commercial systems.

Key Benefits

Number of stations:

- Modular Pro-C: Conventional wiring from 4 to 23 stations, Twowire EZ Decoder option up to 32 stations
 - 3 independent irrigation programs (4 start times each) allow for customised scheduling
- 1 sensor input available for use with Solar Sync[™] or any Clik sensors
- •1 P/MV output for pump start relay and master valve activation
- Dedicated Solar Sync dial position Easy Retrieve™ memory allows for provides logic for smart water savings
 - manual backup and retrieval of preferred settings and programming
- QuickCheck[™] provides simple diagnostics of faulty field wiring

Electrical Specifications

- Transformer input: 120 VAC or 230 VAC
- Station output (24 VAC): 0.56 A
- Approvals: UL, cUL, FCC, CE, RCM
- P/MV output (24 VAC): 0.28 A

Transformer output (24 VAC): 1 A

• Warranty period: 2 years

Number of Stations: 4-32 Type: Fixed and Modular

Plastic Indoor Height: 23 cm Width: 25 cm Depth: 12 cm

Plastic Outdoor Height: 23 cm Width: 25 cm Depth: 12 cm

Modular Expansion Pro-C's Modular version allows easy expansion after initial installation

PC-Series Station Expansion Models:
