

FLORY 9685/9610 SERIES

SWEEPER & BLOWER

QUALITY SINCE 1936

THE FLORY 9685/9610 SWEEPER SERIES & 2500 BLOWER is used for walnut, almond, pecan and fig orchards. It provides fast and effective sweeping and blowing in heavy trash conditions. The reel type sweeping head has proven superior in loose and sandy soils and in heavy grass. It is available with a self-contained hydraulic system, which eliminates the need for additional mountings of pumps as well as various other benefits. Flory Quality above all.

SEE MORE AT GOFLORY.COM

The Flory 9685/9610 Sweeper Head and the Model 2500 Blower float independently of the tractor for a cleaner sweep in uneven terrain.

Hydraulic Reel Drive allows variable reel speeds for various sweeping conditions.

FLORY 9685/9610 SERIES

Flory 2500 Blower is controlled with a damper and cylinder which allows a variable amount of air without affecting the R.P.M. of the tractor's engine.

Air flow direction is adjustable.
