

HUNTER SPIRAL BARB ELBOWS

Type: Accessory
Size: ½", ¾"

ACCESSORIES

Specially designed HSBE fittings offer exceptional durability and easy installation.

Key Benefits

- Robust design for long-lasting reliability
- Acetal material produces sharp barbs that grip the tubing better
- Compatible with Hunter FlexSG tubing and other brands for a customized swing joint — no tools required
- Large spiral sealing barbs ensure a leak-free connection
- Designed to withstand pressures up to 80 PSI without leaks or breaks

Operating Specifications

- Operating pressure: Up to 80 PSI
- Warranty period: 2 years
