the maximum and minimum temperature and humidity recorded. In SET MODE, press to decrease the value of Hour/Minute or switch the time format. Press and hold for 2 seconds, the value of Hour/Minute will decrease at a faster pace.

4. Set the Time

Press and hold the SET button for 2 seconds to enter SET MODE. Once in SET MODE the preference you are currently setting will flash on the screen.

To adjust the currently selected (flashing) item, press and release the ▲ or ▼ buttons (press and HOLD to fast adjust).

To save your adjustments, press and release the "SET" button to adjust the next preference.

You will automatically exit SET MODE if no buttons are pressed for 20 seconds. Enter SET MODE at any time by pressing and releasing the "SET" button.

5. Before First Use

1. Insert or Replace Battery: Insert 1 x AAA battery in correct polarity (+) and (-) as indicated.
2. Do not immerse product body in water.
3. The humidity and temperature monitor is now ready to use.

6. Care of Your Temperature/Humidity Monitor

- Do not leave exposed to extreme high or low temperatures since this will damage electronic parts and plastics.
- Remove battery if stored for more than four months.

* WARNING FOR ARTIFICIAL CARDIAC PACEMAKER USERS

Please be aware that a magnet installed inside the device may impact the functionality of your artificial cardiac pacemaker. If you have a pacemaker, we recommend always staying up to 1 foot or 0.3 meter away from the device.

7. Declaration of Conformity

Hereby, the manufacturer declares that this product complies with the basic requirements and applicable regulations of the EMC Directive 2014/30/EU. The complete declaration of conformity can be found at:

<https://itronicsmall.com/eu-declaration-of-conformity/>

8. Disposal

Meaning of the "Dustbin" Symbol

- Protect our environment: do not dispose of electrical equipment in the domestic waste.
- Please return any electrical equipment that

you will no longer use to the collection points provided for their disposal.

- This helps avoid the potential effects of incorrect disposal on the environment and human health.
- This will contribute to the recycling and other forms of reutilisation of electrical and electronic equipment.
- Information concerning where the equipment can be disposed of can be obtained from your local authority.

CAUTION: Batteries/rechargeable batteries must not be disposed of with household waste!

- The batteries must be removed from the appliance.
- Take spent batteries to the appropriate collection point or to a dealer.
- Your town or local authority can provide information about public collection points.

This symbol can be found on batteries/rechargeable batteries which contain hazardous.

- Pb = contains lead
- Cd = contains cadmium
- Hg = contains mercury
- Li = contains lithium

9. Limited One-Year Warranty

ThermoPro warrants this product to be free of defects in parts, materials and workmanship for a period of one year, from date of purchase.

Should any repairs or servicing under this warranty be required, contact Customer Service by phone or email for instructions on how to pack and ship the product to ThermoPro.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state.
