

SMILEREPAIR PRODUCTS

WINDSHIELD REPAIR ASSORTMENT

For the repair of laminated windshields damaged by flying stones

Art. No. 0893 964 80

P. Qty. 1

- Damaged windshields can be repaired very quickly and cost-effectively without removing them.
- Crack formation is effectively prevented when repaired. The windshield remains fully stable.
- Approved by German TÜV: The operating permit remains in effect thanks to the repair.
- The repair costs are covered by almost all insurance companies.

DENT LIFTER AND PINPULLER® SET

Dent Lifter Set

Dent removal system with adhesion technology.

Art. No. 0691 500 111

P. Qty. 1

PinPuller® Set

Universal dent removal system with welding and adhesion technology.

Art. No. 0691 500 169

P. Qty. 1

- Paint does not need to be removed.
- Interior trims do not need to be removed, and the battery does not need to be disconnected (→ welding).
- The minimal heat generated means that sensitive parts can be worked with as well.
- Easy removal of the adhered pulling adapters by spraying on adhesive remover.
- Area of use: Painted surfaces, sheet steel and aluminum. Sheet thicknesses from 0.5 – 2 mm
