P. Qty.	1	1/12
Contents	5 l	500 ml
Container	Canister	Aerosol can
Colour	Transparent	Transparent

Application area

Ideal for cleaning plastic surfaces prior to painting/priming or applying adhesive. Can be used as a pre-cleaner for wrapping vehicles or as an inspection spray for vehicle conditioning (polishing).

Removes adhesive tape residue, labels, bitumen, greases, resins, inks, solder and flux residues, fresh PU foam residues from lubrication and even the most stubborn dirt and grime.

Suitable for a broad range of uses in the fields of electronics, precision engineering and optics. For example, can be used to clean optical devices, reading and writing heads, precision instruments, PCBs, mirrors and highly polished metal surfaces.

Instructions

For normal surfaces, apply the cleaner directly onto the area to be cleaned and quickly wipe off with a soft, clean, lint-free cloth. For delicate surfaces, spray onto a cloth and wipe down surface.

Notice

Check whether delicate plastics or surfaces are compatible with the cleaner prior to treating by testing on an area that is not visible.

The usage instructions are recommendations based on the tests we have conducted and are based on our experience; carry out your own tests before each application. We do not assume any liability for a specific application result due to the large number of applications and storage and processing conditions. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting with deliberate intent.
