

ORSY®BULL – THE BOX FOR PROFESSIONALS

Whether it's for stationary use in the workshop, warehouse or at your place of work, as system equipment for service and delivery vehicles or as a mobile workshop on construction sites: ORSY®BULL is the mobile system box for almost any job. **Unbelievably stable, with superb flexibility and extremely mobile.**

It can be installed and removed with ease and provides an extensive range of accessories, which means that your ORSY®BULL provides you with enormous flexibility and mobility. ORSY®BULL is available in four clever variants, depending on the job at hand: as a top loader, front loader, drawer box or combination box.

The box that fits.

The system is divided up into 2 series – Series 5 and Series 7. The boxes are harmonized so that they can be arbitrarily stacked or interlocked within a series. The accessory parts are also tailored to the corresponding series – see "Accessories".
