Floor Standing Server Cabinets

Cattex are industry leaders in the supply of floor standing server cabinets, wallmount server cabinets, network & LAN racks, portable rackmount cases and accessories for IT and Networking professionals.

Cattex's range of sleek 19 inch server cabinets are manufactured to industry standard heights which comprises 12U, 16U, 20U, 25U, 34U, 38U, 42U and 47U. With widths of 600 & 800, and depths of 600, 800, 1000, & 1200. Our in-house manufactured cabinets are fully adjustable and are manufactured to international DIN41494 standards on sophisticated computerised machinery before being powder coated to the DIN 34946 standard.

Our hallmark is the attention we pay to customer service. We focus on ensuring our customers not only have the right solution, but the ongoing support as their needs evolve.

Our cabinets are locally manufactured and customizable, from colours, laser cutting and sizes.

IQ Rack - Environmental Cabinets

42U/47U 600MM X 1200MM

The IQ rack environmental server cabinet has the intelligence to monitor temperature, detecting critical rises or drops and send notifications when activities outside the preset parameters are detected. This includes a full environmental monitoring system.

The system will also monitor via 'dry-contact' devices, including motion sensors, door sensors, vibration sensors and smoke detectors. The unit also features remote reboot and controls power (on/off) to servers and network devices.
