Kwikboil

Instant Boiling Water
Dispenser

Add warmth to life.

Instant Boiling Water Dispenser

Features

- Trusted across South Africa
- Reliable, consistent boiling water supply
- Modern and aesthetically appealing
- Stainless steel, white or black epoxy outer casing
- On tap boiling water, 24/7
- Wall mounted
- Fully automatic
- Advanced electronic controls
- Safe, hygienic and energy efficient
- Steam free and convenient
- Self Diagnostic PC board for fault finding
- Energy-efficient performance
- High-quality craftsmanship
- Superior insulation to minimise heat loss
- Suitable for domestic households, offices, canteens, hospitals, commercial kitchens and restaurants.
- Wide range of sizes to suite your specific requirements.

Equipped with advanced safety features to ensure controlled water temperature and dependable performance.

Ideal for offices,
kitchens and staff
facilities requiring
instant boiling water.

Product Specification

Diagnostic PC Board

The unit is fitted with self diagnostics and indicative LED lights. The self diagnostic features programmed into the PC board, enables the unit to determine if a component is faulty, or if there is a fault in the heating and/or filling modes i.e. if there is no water connected.

Diagnostic faults are indicated on the front LED's of the face plate and on the PC board, with the respective component LED, e.g. "SL" indicates Solenoid Valve. The respective LED will flash when a fault is detected.

Kwikboil 25L

Warranty Information

- One year standard warranty, or two year registered warranty is calculated from the date of sale of the unit, as verified by **Kwikot (Haier) SA (Pty) Ltd** from the information contained in the company's records, and to the following conditions:
- The Kwikboil boiling water dispenser must be installed in accordance with the manufacturer's installation instructions, supplied with the unit and all statutory requirements of the geographical area in which the unit is to be installed.
- Where the failed component of the boiling water dispenser is replaced under warranty, the balance of the original warranty period will remain effective. The replaced component or complete boiling water dispenser does not carry a new warranty and the warranty period of the original unit is not extended for an additional period.
- The warranty only applies to the Kwikboil boiling units and therefore, does not cover any plumbing or electrical parts supplied by the installer and not an integral part of the boiling water unit e.g. pressure control valve, stop cock, electrical switches or fuses.
- The warranty is applicable in South Africa, Namibia, Lesotho, Swaziland and Botswana and is subject to water conditions equivalent to main Metropolitan supply authorities.
- This is the only guarantee given, and it expressly excludes all other warranties, expressed or implied in law, including any implied warranty of merchant ability or fitness for a particular purpose. No amendments or additions to the warranty shall be binding on **Kwikot (Haier) SA (Pty) Ltd**.

From a Brand **South Africans Trust.**

Scan and Register Your Kwikot Product (Please Register Online)

Register your Kwikot product today by scanning the QR code on your water heater or by visiting www.kwikot.com to complete the online registration form.

Register your Kwikboil to qualify for an additional 1-year warranty, extending your warranty period to 2 years.

This simple process enables our service team to quickly access your product information, allowing for faster warranty validation and more efficient handling of service requests.
